

Item P13-9055

3M Series 2000 Filters

Series 2000 Filters are designed to be used with 3M 6000 Series facepieces and 7000 Series facepieces that include a bayonet attachment. When using Series 2000 filters in combination with Series 6000 cartridges, a reusable 502 Prefilter Adapter is required. Filters are sold in packages of two each. Prefilter adapters are sold individually.
