

Item P14-2210

Guardian GR6 Web SRL with Barton Malow logo

The Guardian GR6 is lightweight at a mere 1.7 lbs., and 3.3" x 2.5" x 2.5", the GR6 is the smallest and lightest SRL in its class. The GR6's housing is constructed from UV-stabilized, high-strength polycarbonate/ABS and surrounds an incredibly strong steel load-bearing chassis. The sealed housing helps keep out dirt and other contaminants, providing extra protection for the internal components. Its HMPE webbing is ultra-lightweight and abrasion-resistant for a long life. Double-locking carabiner with 3,600 lb. strength gate. Abrasion-resistant HMPE webbing
