Item P16-0005

Haven's™ Grips

Also known as a "Wire Grips" or "Chicago™ Grip," this wire pulling grip is an ideal tool used to grip the cable so it can be pulled, tugged, stretched or dragged. Designed for use when a light, compact grip is desired and where conductor damage is not a factor. Pulls wire and cable tight with a come along (ratchet puller). Gripping pressure of the knurled jaw is applied to 1/4" cable area. **Item 16-0007** has a swing latch to help hold cable in the jaw.

Item	Description	Attributes
16-0005		Minimum Cable: .125" Maximum Cable: steel strand .50" Maximum Safe Load: 5000 lbs. Weight: 2 1/2 lbs.
16-0007		Minimum Cable: .50" Maximum Cable: wire rope 1" Maximum Safe Load: 8000 lbs. Weight: 4 lbs.
