

## Item P21-0630

### High Density Insulation Shield

This carbon steel shield is designed for use with high density (hard) pipe covering or where hard blocks at the point of support are specified. The shield size directly corresponds to the hanger size into which it will nest. (i.e. 2" insulation shield fits into 2" clevis hanger). Refer to sizing chart to determine proper hanger size for various pipe or tubing sizes and insulation thickness.

Item	Description	Attributes
21-0630		Shield Size: 1 1/2" Shield I.D.: 1 7/8" Shield Length: 12"
21-0631		Shield Size: 2" Shield I.D.: 2 3/8" Shield Length: 12"
21-0632		Shield Size: 2 1/2" Shield I.D.: 2 7/8" Shield Length: 12"
21-0633		Shield Size: 3" Shield I.D.: 3 1/2" Shield Length: 12"
21-0634		Shield Size: 3 1/2" Shield I.D.: 4" Shield Length: 12"
21-0635		Shield Size: 4" Shield I.D.: 4 1/2" Shield Length: 12"
21-0636		Shield Size: 5" Shield I.D.: 5 5/8" Shield Length: 12"
21-0637		Shield Size: 6" Shield I.D.: 6 5/8" Shield Length: 12"
21-0638		Shield Size: 7" Shield I.D.: 7 3/8" Shield Length: 12"
21-0639		Shield Size: 8" Shield I.D.: 8 3/8" Shield Length: 12"
21-0640		Shield Size: 10" Shield I.D.: 10 3/4" Shield Length: 12"

Shields up to 24" are also available. Other materials available include Carbon Steel with PVT® (special thermoplastic) coating and Stainless Steel. Also available with an Electro-Galvanized finish. Several other styles of Hangers For Cold Insulated Piping are available. Call for a complete listing.
