Knaack Cart Armour Mobile Cart Security Paneling

Cart Armour is an interlocking steel paneling system that encapsulates mobile work carts to secure them and their contents from theft. The patent pending design incorporates all 16g steel panels that can be installed in 15 minutes or less. The design also allows for installation on new carts or retro-fitting on existing cart models already in service, without having to modify the cart in any way. The recessed padlock design allows usage of a variety of padlocks, while keeping the lock free from snagging on doorways, materials, or clothing. Electrical pass-through with grommet allows power to be run to the interior of the cart while keeping the cord free from damage. Carts sold separately.

Item	Description	Attributes
65-0000		Fits Rubbermaid Cart: 4520-88
65-0001		Fits Rubbermaid Cart: 9T67-00
65-0002		Fits Rubbermaid Cart: Pre-assemble with Rubbermaid Cart Armour 4520-88
