

**Item P10-1947**  
**LEANSAFE® X3 Dual Purpose Leaning Ladder**

Professional 3-in-1 multi-purpose ladder that seamlessly changes from step to straight ladder in one adjustment. Non-marring rubber top protects work surfaces. Compact rear rails fit between framing studs. Designed to lean up against walls, corners, studs and poles. Single latch locks the rear rail to the front rail to keep the ladder in leaning mode. A two color design and highly visible LEANSAFE® logos to make this ladder easily distinguishable from a standard stepladder. 375 lbs. load capacity (includes user and tools). This ladder meets or exceeds the safety standards set by ANSI and OSHA.
