Item P10-3213

Lenox® Master-Grit™ Blades

Tungsten carbide continuous edge medium grit particles have higher abrasion resistance than bi-metal blades resulting in significantly longer blade life in the recommended materials listed below.

Item	Description	Attributes
10-3213		Length: 6" Width: 3/4" Thickness: .032 Grit: Medium Applications: Cast iron, fiberglass Pack Qty: 2
10-3212		Length: 8" Width: 3/4" Thickness: .040 Grit: Medium Applications: Ceramic wall tile, clay, pipe Pack Qty: 2
10-3211		Length: 10" Width: 3/4" Thickness: .050 Grit: Medium Applications: Stone, brick, plaster, marble Pack Qty: 2
