

Item P89-2197

Metabo HPT Angled Finish Nailer

The NT65MA4 15-Gauge Angled Finish Nailer is used for finish-nailing of door casings, window casings, and similar frame assemblies, and for fastening of drawer bottoms and similar assembly work in the construction of various cabinets and cases. Its compact body and angled magazine make for easier placement and operation in tight angles. The integrated air duster clears dust and dirt from the work site allowing for faster, accurate job completion. 4.4 lbs., lightweight and well balanced for easy maneuverability. Selective actuation (ANSI Compliant), allows transition from single actuation to contact actuation. Tool-less clogged nail release mechanism for greater ease of use. Depth of drive adjustment, to countersink or flush drive nails. Unique air duster, clears debris before material installation. Adjustable air deflector, directs the air exhaust in any direction. Long-lasting rubber grip, for added comfort. **Includes: Safety Glasses, No Mar tip, 1/4" NPT Male Plug, and Carrying Case.**

Specifications
