Item P15-1695

Milwaukee Comfort Grip 6in1 Pliers

A unique reaming design is integrated into the pliers head, allowing you to smooth out rough edges of metal pipe. A curved blade design enables you to achieve clean cuts through larger wire sizes. The combo pliers allow you to cut #6 and #8 bolts and feature a swing-lock design for fast one-handed operation, and they won't open while stored in your pouch or backpack.
