

Item P89-2268

Milwaukee M18 FUEL™ Cordless Finish Nailer Kits

The M18 FUEL™ cordless finish nailers provide unmatched driving power, speed and efficiency with practically no set up and minimal maintenance. Using the exceptional application speed, power and durability of Milwaukee's compact POWERSTATE™ Brushless Motor, plus ready to fire cylinder design, these tools are capable of fully sinking 2 ½ " nails into solid oak with zero ramp-up time. These 18-volt finish nailers operate from the revolutionary REDLITHIUM™ Battery for unbeatable strength and run-time, eliminating the mess and cost of gas cartridges. The M18 FUEL finish nailers not only prime you for top performance; it also creates the experience of a pneumatic nailer that professional carpenters and remodelers expect, without the hassle of compressors and hoses. Tool free jam release, dry-fire lock out, tool free depth of drive adjustment and non-marring nose pad are some of the great features these nailers encompass. **Includes: M18 FUEL™ Finish Nailer, M18™ REDLITHIUM™ 2.0 Compact Battery Pack, M18™ & M12™ Multi-Voltage Charger, Belt Clip and Contractor Bag.**
