

Item P10-9996

Milwaukee M18 FUEL™ Deep Cut Band Saw

Utilizing a POWERSTATE™ Brushless motor and Constant Power Technology™, the M18 FUEL™ Deep Cut Band Saw cuts faster than corded band saws. Equipped with Jobsite Armor Technology™, the tool is better protected from drops and debris with a proprietary composite material and crush zone barriers to absorb impacts. REDLITHIUM™ XC4.0 Battery Technology provides up to 2X more run-time through superior pack construction, electronics, and more work per charge over the life of the battery than any competitive lithium-ion battery on the market. REDLINK PLUS™ Intelligence has the most advanced system of cordless power tool electronics, providing optimized performance, electronic clutch, and overload protection using total system communication between tool, battery and charger.

The M18 FUEL™ Deep Cut Band Saw features a tool-free locking adjustable shoe that can adjust from an extended shoe to no shoe in seconds. Other innovative features include a hang hook for easy storage in-between cuts, LED light to illuminate the cutting area, superior cut visibility, and a balanced body design that allows the tool to rest naturally and comfortably in the user's hands. **Kit includes: M18™ REDLITHIUM™ battery pack, M18™ & M12™ multi-voltage charger, blade and carrying case.**

Specifications	
Capacity	5" x 5"
Lenght	21 "
Weight	15 lbs.
