

Item P11-6661

Milwaukee MX FUEL™ Vibratory Screed

Milwaukee MX FUEL™ Vibratory Screed provides consistent starts and the most reliable pours with the power to pull up to 16 ft bars, no gas headaches, and 2 hours of runtime per charge with a 12 ft bar. The POWERSTATE™ Brushless Motor delivers the power to pull 16 ft bar at 9,000 VPM with a variable speed trigger, giving you maximum control in stiff and wet concrete. The MX FUEL™ REDLITHIUM™ battery pack provides instant power with no gas headaches and requires no regular maintenance, produces less noise, and has zero emissions for a safer workspace, indoors or outdoors. The push-button start delivers instant power, eliminating the repetitive motions of a pull start and reducing downtime, allowing you to get jobs done faster without sacrificing the power and runtime you expect. The battery-powered vibratory screed is compatible with all MX FUEL™ REDLITHIUM™ batteries, giving you the hardest working and most reliable power for equipment. The MX FUEL™ Vibratory Screed can accept bars up to 16 ft long without sacrificing power and can run two motors on one bar for increased mobility. **Includes: MX FUEL™ Vibratory Screed, (2) MX FUEL™ REDLITHIUM™ CP203 Battery Pack, MX FUEL™ CHARGER, and 9/16" wrench.**
