

Item P10-2750

Mortar Drum Mixer (8 cu. ft. capacity)

Durable construction, easy-to-clean design and easy maintenance make this Plaster and Mortar Mixers the best in the industry. Powered by an 8 HP Honda engine. Exclusive axle design extends from 34" (for going through doorways) to 46" (for high speed towing). Mixing drum is constructed of heavy gauge steel and carries a two year warranty. Rugged, heavy duty main frame is gusseted for extra strength to prevent bending and damage. Patented drum latch and front post hand clutch are located right where the operator stands for easier operation and higher productivity. Automatic Guard Lifter allows guard to stay cleaner and makes discharging easier. Patented quadruple bearings and seals carry an unconditional lifetime warranty. Heavy duty tow pole along with 4.80 x 12 (20" diameter) high speed tires make vehicle hook up fast and easy. Drive & clutch style: VBelts to gears; Front post hand clutch. Made in USA.
