

Item P16-1100

Access Tile Replaceable Cast in Place Tile

Replaceable Cast in Place tiles are easily installed directly into wet set concrete and feature industry-leading replaceability feature. Replaceable Cast in Place tiles are lightweight yet durable for all wet set concrete installations. This detectable warning tile meets all ADA requirements and is a reliable choice for any project. Multiple detectable warning tiles can be anchored together using tamper-proof stainless-steel fasteners, which maintain a flush interface with tactile walking surface indicators. Tiles can easily be cut on-site to conform to the unique angles or radius ramps, providing a project-specific ADA compliant solution. Access® Tile's Detectable Warning Tiles exceed the requirements of all projects and codes. Access Tile is designed, tested, and manufactured in the USA.
