

Item P11-6536

PLS Manual Slope Rotary Laser Kit

The HV2 rotary laser level emits a self-leveling horizontal laser plane and can be used in the vertical position to emit a vertical laser plane. Applications include setting foundations and footings, concrete pours, drywall terracing, contour framing and suspended ceiling installation. Includes: metal ceiling and wall bracket to help with large suspended ceiling layout and installation, as well as an elevating tripod and 16-foot grade rod.
