

Item P10-0400

Portable Welding Screens

Strong, 1", 18 gauge tubular steel frames. Black enamel, rust resistant finish. Easy assembly, frames slip together quickly with no tools required. Unique fastening system secures tubes and prevents slipping and twisting. 24" platform legs ensure stability and balance. 4" bottom clearance for better ventilation. Curtains are held by strong adjustable ties through heavy-duty grommets on 12" centers and hemmed with strong, flame resistant Kevlar® thread. All curtains have grommets on all four sides.
