

Item P10-3400

Porter Cable Laminate Trimmer

31,000 RPM, 4.5 amp motor provides the power and durability required to cut in various materials. Perfect for trimming, small edge forming and hinge routing applications. Ergonomics allow for comfortable, single-handed control. Precision-machined, cast-aluminum fixed base proves long term durability. Quick release clips to remove the motor from the base. Micro-set collar for quick and accurate bit height adjustments. Spindle lock button allows for single-wrench bit changes. 1/4" collet. LED light and clear sub-base ensure maximum visibility in operation.
