

**Item P14-0048**

**Pre-Moistened Lens Cleaning Tissues**

These pre-moistened lens cleaning wipes are individually packaged with the special surfactants that clean all glass and plastic lenses. Non-Silicone tissues are anti-static and can be used on eyeglass lenses, computer screens, mirrors and other glass surfaces. Non-silicone based tissues are both anti-static and have an anti-fog formula making them ideal for glass or plastic lenses. The compact dispenser holds 100 individually packaged 5" x 8" folded pre-moistened tissues.
