

Item P99-0393

SDS Plus Stop Bits

Stop bits ensure proper drilling depth for drop-in anchors. This is especially important when drilling into post tension slabs. The 1.25" shoulder keeps user from over drilling. Available in the most common drop-in anchor sizes with labels that clearly call out which size bit to use with which size drop-in anchor. Fits all SDS+ Hammers.

Item	Description	Attributes
99-0383		Diameter: 3/8" Usable Length: 1-1/16"
99-0538		Diameter: 1/2" Usable Length: 1-11/16"
99-0396		Diameter: 1/2" Usable Length: 3/4"
99-0539		Diameter: 5/8" Usable Length: 2-1/16"
99-0542		Diameter: 5/8" Usable Length: 1-1/16"
