

**Item P26-0263**

**Smoke 'N' Sound Sealant**

SpecSeal® Smoke 'N' Sound sealant is designed to be used to stop the passage of smoke, as in smoke barrier walls. Also for reducing the transmission of sound through wall openings. The single grade acrylic latex sealant may be caulked, knifed or troweled. Safe for use with most plastics, contains no solvents. Water based for ease of installation, cleanup and disposal.

Smoke 'N' Sound spray is formulated to adhere to all common construction surfaces and may be applied using airless spray equipment or with a brush (for small applications and touch ups). Color:White
