Item P10-4080

Standard Flap Discs

Recommended for universal use, these good quality flap wheels provide rapid stock removal and extremely long life. Can be used on ferrous metals (alloyed and unalloyed steels, high speed steel, cast iron), stainless steel, non ferrous metals (aluminum, brass, copper, zinc), as well as composites, plastics, and soft and hard woods. Excellent value. Made in U.S.A.

Other sizes & grits available.

Ask your Colony Representative for a complete listing.
