

Item P10-2605

TS410/TS420 Stihl® CutQuik®

The Stihl® Cutquik offers 43% less vibration, 20% longer runtime on a tank of fuel and a more advanced engine technology which makes it 44% cleaner than its predecessor, the TS400. The improved X2 air filtration system allows the end-user to use the same air filter for up to one year without cleaning. Available with either a 12" or 14" cutting wheel, Stihl offers many standard features including a semi-automatic belt tensioner, ElastoStart Plus which offers fewer pulls on the starter rope making starting easier, closed tank ventilation system, a bayonet fuel filler cap (no tools required to open fuel tank) and a 2 stroke engine exceeding emissions standards. Other features include top handle design with on/off thumb access button and a magnesium guard for optimized weight and balance.

Specifications	
Displacement	4.07 cu. in. (66.7 cc)
Engine Power	4.4 bhp (3.2 kW)
Tool Weight	12" 20.7 lbs.
Fuel Capacity	24 oz. (710 cc)
Engine Speed	9,000 rpm
Max. Spindle Speed	5,350 rpm
Arbor Size	20mm
Wheel Size	12" or 14"

Item	Description	Attributes
10-2605	TS 410 w/ 12" guard	
10-2606	TS 420 w/ 14" guard
