

Item P14-1620

Twin Front Fiberglass Step Ladder Type 1A (300 lb)

"Twin-Front" design allows entry to ladder from either side allowing the ladder to be used simultaneously by one person per side. (Total combined weight on ladder must not exceed 600 pounds; 300 lbs. per side.) Features inside spreader braces which help protect braces from damage in transit. Heavy gauge steel hinge design at top of ladder. Slip resistant rubber feet. SHOX step supports offer enhanced impact absorption and better protection against damage. Meets all OSHA requirements and the ANSI A14.5 standard. Type 1A.

* Type 1AA rated (375 lbs)
