

Item P12-4322

Ultra-GutterGuard®

Keeps sediment and debris out of curb inlets. Can be reused- simply remove, clean and store properly. Built-in overflow ports allow water to pass through during major rainfall events. Installation is quick and easy with no stakes, weights or hardware required. Simply place in front of curb inlet assuring at least a 12" overlap on each side. Helps comply with NPDES, 40 CFR 122.26 (1999).
