

Item P21-0368

Werner 3' Manual Rope Adjuster with Shock Absorbing Lanyard

3' Manual rope adjuster with shock absorbing lanyard moves up and down vertical lifelines for continuous fall protection. The manual design allows user to fix location of unit for positioning or restraint applications. Design allows unit to be attached or removed anywhere along a lifeline. Shock absorbing 3' lanyard comes attached for fall arrest situations. For use on 5/8" rope lifelines.
