

Item P14-0671

Workeasy Nylon Gloves

These gloves are an excellent alternative to standard leather palm or cotton work gloves. Nitrile dipped for a highly abrasive resistant, non-slip grip. Stretch polyester base material provides a tight fit yielding excellent dexterity and breathability. Available in sizes large and extra-large. Black Nitrile is for general use, while Gray Nitrile has oil resistant qualities. This is a great glove at a competitive price that can be used by any construction trade. Sold by the dozen. Sperian by Honeywell.

Item	Description	Attributes
14-0671	Nitrile Black	Size: Large
14-0673	Nitrile Black	Size: X-Large

What is Nitrile?

A durable synthetic rubber that provides excellent cut, slash, snag, puncture and abrasion resistance while offering superior dexterity and grip especially in wet and oily applications.
