Item P26-0112

Backer Rod

For joints greater than 1/4" a round, flexible length of extruded polyethylene backer rod can be used to create a surface backing. At the same time it insulates and acts as a bond breaker allowing the caulking material used to adhere better. Easy to install, backer rod will compress to fit a wider range of joint sizes. It allows for a faster cure of caulk. For indoor applications only. Open cell.

Item	Description	Attributes
26-0112		Diameter: 3/8" Roll Size: 100 ft.
26-0113		Diameter: 3/8" Roll Size: 3,600 ft.
26-0114		Diameter: 5/8" Roll Size: 50 ft.
26-0115		Diameter: 5/8" Roll Size: 1,550 ft.
26-0116		Diameter: 7/8" Roll Size: 50 ft.
26-0117		Diameter: 7/8" Roll Size: 850 ft.
26-0118		Diameter: 1 1/8" Roll Size: 50 ft.
26-0119		Diameter: 1 1/8" Roll Size: 500 ft.
