

**Item P10-2331**  
**Bosch 18V EC Brushless StarlockPlus® Oscillating Multi-Tool (Bare Tool)**

18V StarlockPlus® Oscillating Multi-Tool features the Starlock® next-generation 3-D tool-accessory interface. This provides outstanding accessory grip, making it the new professional standard in oscillating tool performance. With more contact surface area between the tool and accessory, the Starlock® interface is a cupped 3-D tool-accessory connection that delivers greater torque transfer for an expanded work capacity. The no-touch blade-change system makes it easy to attach, remove or reposition blades. **Includes: 1-1/4 In. plunge blade and accessory box.**

Specifications	
Voltage
