

Item P10-1148

Bosch Demolition Hammer-Variable Speed

Powerful impact mechanism delivers up to 9.6 ft. lbs of impact energy. Patented Auto-Max™ dial provides for speed control and maximum power all the time. SDS-max® tool holder makes insertion and removal of bits quick and easy. Vario-Lock system allows tool steel to be positioned at 12 different angles, while holding bits secure during chiseling. Also features a vibration dampening handle with a large trigger and a lock-on switch for reducing operator fatigue. Service Reminder Light indicates the need for service 8 hours in advance of tool shutdown. **Includes 360° handle and carrying case.**
